Services

Our broad service offer gives you the freedom to decide how much you want to do yourself and how much you want us to do for you.

Below you'll find all the services that we can offer.

Kitchen planning

Get help with the planning of your new kitchen, by booking an appointment with one of our experts at IKEA. You bring the measurements and drawing or a picture of the area – we help you with inspiration and functional solutions for everything, from the placement of cabinets and appliances, desks and storage to lighting, sinks and wash-basins.

Measuring

If you prefer, we measure the room and check everything, from the placement of windows, doors and power sockets to the material and condition of the walls.

Delivery

Whether you're shopping in store or online, and no matter how big the purchase, we'll do the heavy lifting and bring it to your home or business. We deliver on a day and at a time that suits you.

Removal and recycling

When you buy a kitchen with installation from us, we are happy to take care of your old one. Whatever can't be reused will be recycled responsibly.

Kitchen installation

If you want to make things smooth and easy for you – we'll install your new kitchen and coordinate the job from start to finish. We handle all those time-consuming jobs like fitting sinks, taps and worktops. We also take the packaging with us when your kitchen is in place.

Worktop installation

If you buy a worktop from us, we can deliver and install it for you – and we take the packaging with us for recycling when the job is finished.

You can do it yourself, but you don't have to

What type of kitchen are you looking for?

Whether you're looking for a complete kitchen system like METOD that you can personalise any way you want, or a simpler kitchen that you can install in a day, we have what you're looking for. Here you have three different types of IKEA kitchens to suit different needs and wishes.

METOD kitchen system

Our METOD kitchen system includes cabinets in several different sizes to fit your room layout as well as your kitchen habits. The flexibility of the system offers endless of choices, giving you the freedom to customise a kitchen that's ideal for you and your space. We've also developed an extensive range of kitchen organisers and interior fittings allowing you to quickly see and reach even the things furthest back in the corner cabinets. In addition you have a vast choice in front expressions, worktops, lighting, sinks, taps, knobs, handles and much more to personalise every inch of your kitchen. **See page 8**

ENHET kitchen

Whatever shape your homes takes, your ENHET kitchen will fit right in. Find pre-combined and affordable solutions online and assemble them without special tools – they are simply clicked together. ENHET gives you great freedom to personalise your kitchen, offering open and closed storage and doors in different colours, as well as different accessories. **See page 46**

KNOXHULT kitchen

KNOXHULT comes in pre-set modules that you can arrange the way you prefer. Together with our LAGAN appliances you can get a complete kitchen with all the basic functions you need at a low price. Add sink, tap, knobs and handles of your choice to complete the look. The simplicity of the pre-set modules makes the installation so easy that you can have a fully functional kitchen up and running the same day you bring it home from the IKEA store. **See page 70**

Kitchenettes

Not all of us have a lot of space or money for a larger, built-in kitchen – and for different reasons, many of us are just looking for a practical solution that isn't so complicated. Our range of kitchenettes, offers all the ingredients for this very important function in clever, compact designs. You can choose between our basic or modern expressions and add TILLREDA appliances to customize your culinary space according to your needs. It's all there, personal, functional, affordable and easy to install. And there's no need to part from your beloved kitchenettes when you move because you can easily take it with you. Simple as that. **See page 74**

METOD kitchen system

Endless possibilities

The modular design of METOD kitchen system is easy to install and gives you endless of possibilities when designing your kitchen. Whether you have a taste for the traditional, love the minimalism in modern style or land somewhere in between, you'll surely find something that fits you.

To become truly beautiful, the kitchen has to be functional and take care of all your kitchen needs, too. With METOD you have the freedom to get the look you want on the outside and keep everything in perfect

order on the inside. Start by deciding the style of your dream kitchen by choosing the doors and drawer fronts, lighting, worktop, sink, tap, knobs, handles and accessories that you like.

Door and drawer front styles

Sleek doors and drawer fronts

Sleek doors offers you straight lines and smooth, easy to clean surfaces, simplicity in its truest form. Choose from a wide variety of finishes, colours and materials.

Frame doors and drawer fronts

Frame doors and drawer fronts are rich in detail, with a crafted look and feel -they create a kitchen with a rustic and traditional look. All our frame door families have a matching glass door.

High-gloss doors and drawer fronts

Glossy surfaces suit everyone from the minimalist to the wild family with kids. Stains are no problem as they are just as easy to wipe clean as they were to make.

Doors and drawer fronts with integrated handles

You might not notice them at first glance – and that’s the idea! Integrated handles lend a minimalistic and modern feeling to your kitchen.

Material for kitchen fronts

Kitchen fronts that suit you

Are you looking for a completely new kitchen or are you going to update your existing one? Regardless, we want to help you choose the best kitchen fronts for you and your home. Material, surface treatment and appearance affect your fronts and before you choose, it may be good to think about a few things. What style, colours and patterns do you like? And what are your requirements when it comes to durability, and maintenance? Here we summarise the features and advantages that IKEA kitchen fronts have. All fronts have a 25-year guarantee, so you can be sure to enjoy them for a long time.

Wood – warm and unique

Real wood has a warm and natural expression. Massive wood and wood veneer has its own unique look, since the grain and pattern are different from plank to plank, giving your kitchen a vibrant and natural feel. The colour of the wood deepens and becomes richer over time – and if you take care of your fronts, they will stay beautiful for a long time. The surface can be varnished with clear lacquer, oiled, stained or left untouched to maintain the natural expression.

- + Sturdy and solid.
- + Can be oiled and stained.
- + Colour deepens with time.
- + Unique expression

Stainless steel – durable and professional

Stainless steel is a very durable material. It is an elegant, attractive, and modern material that has stood the test of time and maintained its popularity year after year. Stainless steel fronts give the feeling of a professional restaurant kitchen. It is beautiful in its own right and complements other materials and colours well. Stainless steel is easy to manufacture from recycled metal – and to recycle again.

- + Very resistant to grease, dirt, water, heat and chemicals.
- + Gives your kitchen a professional feeling.
- + Easy to clean and maintain.

Foil – easy-care and versatile

With foil coating, kitchen fronts can have many different expressions – everything from a matte or high-gloss surface to embossed effects and a wide choice of colours and patterns. Foil coating is usually produced from a flexible plastic foil, that is heated and cast over particleboard. The result is a front with an even, smooth and durable surface. Foil with an extra-matte finish may need a little more love and care to remove stains.

- + Scratch resistant.
- + Great variation in appearance.
- + Moisture resistant.
- + The colour does not fade over time.

Lacquered – many colours and a smooth surface

We have lacquered fronts in many different colours, so you can choose one that suits your home best. Lacquered fronts do not need an edging strip, and have a uniform colour and texture over the entire front. They can also be painted or re-varnished in new shades, making it easy to update your kitchen and extend the life of the fronts. Lacquered fronts are produced by spraying paint over compact particleboard. The paint is applied very evenly over the board, and the surface is smooth and easy to wipe dry.

- + Uniform colour and texture over the entire front.
- + Can be repainted.
- + Easy to clean.

Tempered glass – strong and decorative

With glass doors, you can display your favourite objects and add lighting to the cabinet for an extra-cosy touch. The glass in the door is industrially tempered glass, which is a stronger and safer type of glass. It can withstand heavier weight and better resist scratches. If the glass does break, it breaks into smaller and more harmless pieces than ordinary non-tempered glass.

- + Stronger than ordinary glass.
- + Easy to clean.
- + The glass gives a sense of the contents in the cabinet and evokes interest.
- + Combine with lighting in the cabinet for an extra-cosy touch

Decorative strips

Decorative strips provides the finishing touch to your kitchen. They come in many different styles, but we have something for all or our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them both above as mouldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

METOD interior fittings and organisers

Hidden helpers

With METOD interior fittings and organisers, you can get the look you want on the outside without revealing what's inside. The cabinets can be hiding all sorts of kitchen surprises. Behind a door you can find pull-out organisers for your cleaning equipment, organisers keeping all your pot lids in perfect order, or a great bunch of fully extendable drawers

making everything easy to reach. Not to mention drawers inside drawers allowing you to utilise the cabinet space to a maximum. It's really up to you what goes inside your kitchen cabinets.

On the following pages you'll find numerous of handy helpers making your daily work in the kitchen run smoother.

MAXIMERA drawers and drawer accessories

MAXIMERA drawers pull out all the way, and thanks to a built-in damper they always close softly and effortlessly. You have complete overview and you can easily reach the smallest of utensils even at the back of the drawer.

ENHET kitchen system

Plan less, live more

ENHET is easy to buy and equally easy to update if you need to, or simply feel like it. You can choose between ready-made combinations online and buy your favourite with a few clicks. All parts are easy to assemble, intuitively and without any special tools.

The playful design in different colours inspires you to adapt ENHET to reflect your personality. With a combination of open frames and closed cabinets you can display your favourite things and hide the rest. The ENHET kitchen units also come in different widths and depths, making them easy to adapt to a smaller space.

Helping you keep your kitchen utensils neatly organised and close at hand, the ENHET accessories include a hook rail that can be moved around without having to drill into the wall, a swivel shelf for smaller items and a hanging shelf insert that you simply hang in the grooves of an open frame to maximise storage space – no tools needed.

ENHET storage combinations

ENHET is all about simplicity and the possibility to change and adapt your home when your life changes. No matter what happens, everyday life becomes much easier when all things can be found in their designated place, especially if floorspace

is limited. That is why we have developed these combinations that can create extra work and/or storage space. Pick the one that best suits your needs and helps you use your space efficiently.

ENHET A100 storage combination W60×D32×H255 cm.
This combo makes good use of the wall space while taking up minimal floor space. You can keep cluttering items dust-free behind doors and create a statement with your favourite objects on the open shelves.

ENHET A101 storage combination W120×D32×H150 cm.
A clever combination with a mix of open and closed storage. It makes good use of wall space - and offers just the place for a waste bin and/or towels.

ENHET A102 storage combination W60×D32×H150 cm.
A mix of open and closed storage that allows you to show or not to show. Put your favourite objects on display and hide the messy stuff. A clever combo that can be placed almost anywhere in your home.

ENHET A103 storage combination W121.5×D63.5×H222 cm.
A compact solution with a mix of easy-reach shelves and clutter-concealing drawers - whatever your space or storage needs, this easy-fit combo is ready to please.

ENHET A104 kitchen island W123×D63.5×H90.3 cm.
This kitchen island will be the centre of attention whether you are preparing food, unloading groceries or serving tapas.

ENHET A105 storage combination W143×D63.5×H90.3 cm.
This combination offers 2 workspaces, plenty of open storage and a handy drawer under the oven for pans, foil and baking paper.

ENHET A113 storage combination W40×D17×H150 cm.
This shallow combination uses the wall space to create storage. Keep cluttering items behind door and use the shelves for easy access to things often used.

ENHET A114 storage combination W120×D32×H150 cm.
A mix of open and closed storage that allows you to show or not to show. Put your favourite objects on display and hide the messy stuff. A clever combo that can be placed almost anywhere in your home.

ENHET A107 storage combination W123×D63.5×H207 cm.
This solution offers closed storage along the wall allowing you to hide the clutter and an open unit beneath to store often-used items. There's a handy workspace too - you're welcome.

ENHET A108 kitchen island storage combination with seating W123×D63.5×H90.3 cm.
This kitchen island puts things within easy reach and will soon become your favourite spot for snacking, working and socialising.

ENHET A115 storage combination W60×D32×H180 cm.
This high cabinet and open wall frame make it possible to utilise the wall space for storage while also saving floor space.

ENHET A116 storage combination W80×D32×H150 cm.
A mix of open and closed storage that allows you to show or not to show. Put your favourite objects on display and hide the messy stuff. A clever combo that can be placed almost anywhere in your home.

ENHET A109 storage combination W121.5×D63.5×H222 cm.
The open storage creates an airy feel and the accessories put things within easy reach - there's even a perfect spot for your fridge.

ENHET A112 storage combination W90×D32×H180 cm.
This combination offers a perfect mix of open and closed storage – and a tailored space for a washing machine and laundry bin.

ENHET A117 storage combination W120×D32×H225 cm.
This combo makes good use of the wall space while taking up minimal floor space. You can keep cluttering items dust-free behind doors and create a statement with your favourite objects on the open shelves.

ENHET doors and drawer fronts

Show your true colours

Whether you are set on a classic one-coloured look or prefer a funkier mix of different hues, ENHET offers a range of doors and drawer fronts that will accommodate your wishes. There are colours that bring a clean, bright and fresh look to your kitchen which you can match with every colour of the rainbow. Naturally, you can also mix colours for

a truly personalised kitchen, and combine closed doors with open shelves for a more playful expression. No matter the style you choose, the surface of the doors resists moisture, scratches and bumps, which means that your kitchen is well prepared to handle years of daily wear and tear.

KNOXHULT kitchen

When basic functions and low price matters

To make it easy for you, we've already combined ready sets with cabinets, doors, worktops, shelves, drawers, sink, tap and water-trap. All you have to do is to pick the finishing touches, like knobs, handles and appliances. If you bring it home from your local IKEA store in the morning, you can

have it installed and ready for cooking a late supper in the evening. Go to [ikea.ch](https://www.ikea.ch) to see all the ready-made sets. You can of course pick and choose exactly the KNOXHULT cabinets you want, too. On the next pages you'll see what choices you have.

KNOXHULT is functional and easy to plan. Pick the combinations you like, then choose appliances, sinks, taps knobs and handles. Done!

Lighting and home electronics

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we have different families of integrated lighting series that are perfectly dimensioned to fit our kitchen cabinets. Having integrated lighting in your kitchen is a great way to show off your favourite dinnerware behind glass doors or in drawers. And, good lighting brings alive your cabinet doors, worktop and wall panels, too.

Get an even better kitchen life with the ability to dim and turn off and on light wirelessly. All you need is RODRET wireless dimmer or STYRBAR remote control.

Kitchen installation

If you want we can install all your kitchen lighting for you, as a part of our Kitchen Installation service. See more on **page 101**.

Or, connect smart lighting to DIRIGERA hub to control every beam of light, together with other smart products, in the IKEA Home smart app.

Sound is a powerful mood booster, much in the same way as light. Both are crucial for creating the right atmosphere at home and both are deeply personal – each of us has our own unique preferences in terms of volume, brightness, type, and genre. Like light, sound is culturally and socially important; it brings people together.

Sound has the ability to change the atmosphere at home dramatically. So, turning a grey day into a great day is only a touch of a button away.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

Worktop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Cabinet lighting illuminates your favourite kitchen doors and creates cosy mood light in the entire kitchen.

Lighting for METOD

Cabinet lighting

A cabinet's best friend – it lights things up inside and creates a cozy atmosphere in the room. Use it on top of a wardrobe in the bedroom, or together with storage in the living room, kitchen or hallway. YTBERG and TVÄRDRAG are dimmable with RODRET wireless dimmer or STYRBAR remote control (sold separately) to control up to 10 smart light sources which will react in the same way – dim, switch off, turn on. The bracket makes it possible to slide the lamp back and forth. You easily attach it with screws – or with double-sided adhesive tape on glass and metal surfaces. You can connect in line max 6 units.

YTBERG cabinet lighting. You can bend, angle and move this slim lamp sideways to direct the soft light precisely over your cabinet. A perfect choice if there is little space between the top and the ceiling. Dimmable with RODRET wireless dimmer or STYRBAR remote control or in the IKEA Home smart app with DIRIGERA hub, sold separately.

How to build

MITTLED LED cabinet lighting is easy to install by yourself.

- When you start building your METHOD kitchen system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 60 cm, you'll need the MITTLED lighting strip 60 cm too.
- Choose the number of MITTLED lighting strips that you need. To be completed with TRÅDFRI LED driver, VÅGDAL connection cord and FÖRNIMMA power supply cord sold separately.
- Add the TRÅDFRI driver. For the 10W driver you can connect up to 3 units to the driver, as long as the total wattage does not exceed 10W. For the 30W driver you can connect more than 9 lights if they don't exceed 30W. TRÅDFRI drivers need to be connected to the plug with a FÖRNIMMA power cable.
- Add RODRET wireless dimmer or STYRBAR remote control to dim your lighting. Pair the dimmer to the TRÅDFRI driver and the entire combination will dim at the same time.
- Add the DIRIGERA hub to control MITTLED connected lighting from the IKEA Home smart app in different ways together with other smart lighting product in your home.
- If you chose our ready-made METHOD solutions just add the Lighting that fits to this combination from page 78.
- When you start to plan your base cabinet solution start to think where you need a drawer light that will help you to find tools or see the content of the base cabinet. The drawer lights can be connected to ANSLUTA driver 19W.

Worktops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your worktop can have a big impact on the overall look. However, the perfect worktop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right worktop there are many factors to

consider, including your style, durability, maintenance, lifestyle and cost. Our worktops are available in pre-cut and custom-made as well as in a wide range of durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your worktop:

01

What's your budget? A stylish look does not have to cost a fortune, our worktops are available in wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material do you prefer? When deciding on material, consider how robust you need your worktop to be, how much you are prepared to look after it, and how you want it to look in your kitchen scheme.

03

Custom-made worktops are made to fit your kitchen layout, you can order the exact length and depth you need, as well as cut-outs for your sink, tap and hob. Pre-cut worktops are available in different sizes, you can take yours home today and cut it to desired length.

25

All worktops have a 25-year guarantee. Find out more on page 140

Built to last

When we test our worktops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our worktops will last, we guarantee it.

Materials

Laminate

Laminate worktops are affordable, easy to maintain and there are lots of colours and expressions to choose from. They are made of laminate pressed onto particleboard. Both heat and pressure are applied to harden the surface and create a durable worktop.

Thick veneer

Thick wood veneer worktops offer the natural colour and grain of wood, adding warmth to your kitchen. They are pre-treated for quicker installation and can be sanded and treated when needed. The thick veneer technique allows us to create patterns and expressions that are otherwise difficult and expensive to achieve – with the efficient use of natural resources.

Quartz composite

Quartz composite worktops are extremely durable, resistant to scratches, moisture and impacts. They are made by combining ground quartz (one of the hardest materials in nature), resins and pigments. This creates a very hard, non-porous surface that is smooth, easy to clean and does not require any sealing treatment. Our quartz composite worktops are 2 or 3 cm thick and come in a wide variety of expressions.

Laminate worktops 2.8 cm thick

EKBACKEN and LILLTRÄSK laminate worktops are 2.8 cm thick and have a straight edge. They are durable, easy to maintain, and come in an extensive range of colours and textures (standard, matte, high gloss and even soft-touch).

EKBACKEN laminate worktops are available as pre-cut (take home today) or custom-made, with more edge and size options. Pre-cut worktops can be cut to the exact length you need and finished with the edge strip included in the package.

Thick veneer worktops 2.8 and 3.8 cm thick

Natural and hard-wearing, wood brings a warm feeling to your kitchen and makes each worktop unique. With thick veneer worktops, a 3 mm layer of wood covers a particleboard core to add excellent stability.

This construction makes the worktop less sensitive to humidity and much less likely than solid wood to bend, split or crack. Also, with this technique, we can create new unique expressions using less wood, and reducing the impact on the environment.

The worktops are pre-treated with hard wax oil to create an easy-care surface for immediate use. Over time, it will only look better, gaining in character. They can be sanded and treated when needed meaning that they will age gracefully.

Thick veneer worktops come in the following crafted patterns: narrow stave, full plank, butcher-block, fine line and chevron.

Thick veneer worktops are available both as pre-cut (take home today) and custom-made option. Pre-cut worktops can be cut into the exact length you need and finished with the edge strip included in the package.

Ash
Ash is a blonde hard wood with a beautiful grain pattern. Ash is a tough and strong, yet elastic material with great resilience and finishing properties. It gets gradually darker with age. In its natural form it is heavy and gives a very solid feel.

Birch
Birch is fine-grained and pale in colour with a satin-like sheen that darkens with age. It often has knots or heartwood in cream or light brown which will give your worktop a unique and distinct natural look.

Beech
Beech is a hard wood with an even grain. It's durable and often used for furniture and worktops. When exposed to sunlight, beech ages from a light red tone to a more rose-brown colour. Beech characteristics are hardness, strength and good shock resistance.

Oak
Oak wood is exceedingly strong, heavy and durable. It is an attractive light colour with a prominent grain. Its colour ranges from light brown to a rich reddish-brown and it darkens beautifully with age.

Walnut
Walnut wood is relatively heavy, hard and resilient. The natural colour light brown to dark chocolate brown adds warmth to your kitchen decor. Walnut gets lighter in colour with age. It has a rich variation in colour and a decorative, curved grain pattern.

Quartz composite worktops 3.8 cm thick

OXSTEN quartz composite worktops come in matte or polished finishes, different thicknesses and colours. You can also choose between different edges for an even more personalised expression.

Quartz composite worktops have a smooth, non-porous surface. This makes them hygienic and resistant to stains and moisture, and they don't require sealing. As the quartz content is a natural material, you can expect slight variations in colour, and in the size, shape and distribution of particles. These slight variations are part of the beauty and charm of the material and make every worktop unique. Quartz composite worktops are available only as custom-made.

Additional charges will apply for services and customisation options. Book an appointment with an IKEA store to plan your worktop and receive complete price information.

04

Take measurements
Then start to measure to see what size and shape of worktop you need. If you would like help with this, or with anything to do with measuring your kitchen, our measuring service can come to your home.

05

We're here to help
To design your custom-made worktop get help from an IKEA co-worker in the kitchen department at your local store, or use our online calculator.

06

Order
When you feel ready to order your custom-made worktop, please contact an IKEA co-worker in the kitchen department at your local store or online through our remote planning or validation service.

Measuring your worktop

It is important to get the measurements for your worktop right, especially if you plan to order a custom-made one.

01 Have proper tools handy. Carpenters rule/tape measure, pencil and angle square.

02 Measure your worktop starting from one corner to the opposite end. Secure that all length and depth measurements are taken from at least two places. Don't forget to add 30 mm to the length of cover panel and overhang.

03 Measure from the corner of the worktop to the centre of the base cabinet where your sink is located.

04 Then measure from the corner to the centre of your hob. Notice where the joints are and keep this in mind.

05 Measure the thickness of your worktop.

06 If you have a kitchen island, don't forget to take measurements of your existing worktop, including the centre of cut-outs.

We will do it for you

Do you want a customised worktop, but feel uncertain about the measurements? No need. We will come to your home to measure and give you a quote.

When your new worktop is ready, we deliver and install it for you. We also take all the packaging with us for recycling.

Wall panels

Walls to match your style!

Adding wall panels is a quick and easy way to update your kitchen with new colors and texture. Our durable and easy-to-clean wall panels protect your walls from splashes and stains when you are cooking. They give you a neat finish where your worktop meets the wall and add a subtle accent of color to your

kitchen walls creating a stylish look. You can choose wall panels in various colors, materials and expressions, some are even double-sided! But if you want to go very personal, you can have your own customized one.

How to choose your wall panel:

01

What's your budget?
A stylish look does not have to cost a fortune, our wall panels are available in a wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material and expression do you prefer? The material of the wall panel you choose is just as important as the colour. Your wall panel is always going to be right up against your worktop, make sure the two materials and colours work well together.

03

Your wall panel has to end up somewhere! Where it ends is up to you – along the length of the wall, up to the bottom of your wall cabinets, up to the ceiling in areas where there are no cabinets (over the sink or over the hob).

25

All custom-made wall panels have a 25-year guarantee. Find out more on page 140.

Materials

Laminate

Laminate wall panels offer a wide variety of colors, patterns and textures needed to personalize your kitchen space. They are resistant to water splashes, stains and grease, which makes them a durable and low maintenance choice.

Quartz composite

Quartz composite wall panels are extremely durable, resistant to scratches, moisture and impacts. They are made by combining ground quartz (one of the hardest materials in nature), resins and pigments. This creates a very hard, non-porous surface that is smooth and come in a wide variety of expressions.

Custom-made wall panels

Complement your custom-made worktop with a matching wall panel made to perfectly fit your kitchen layout. Please see **page 100** for more information about custom-made options.

Additional charges will apply for services and customisation options. Book an appointment with an IKEA store to plan your wall panel and receive complete price information.

Sinks

A busy place in the kitchen

The sink and the area around it, is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and washing up. To make

the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 40, 60 or 80 cm wide.

02

Think about how you prepare food, but also how you wash up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organise the area in and around the sink, both when you prepare food and when you wash up (see page 111).

Plumbing

Let a professional connect the water to the sink and kitchen mixer tap you've bought from us. Then you know that everything from the U-pipe to water-trap and silicone seals are where they should be – and that costly water leaks will be avoided.

Read more about our services on page 4.

25

We test our sinks to ensure they can withstand the demand of everyday life in the kitchen. That's why all our sinks come with a free 25-year guarantee (except FYNDIG). Find out more on page 140.

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible (see page 111).

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and alike in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. All our sinks with drainboard are reversible, so you can choose if you want the drainboard to the left or to the right.

LILLHAVET wash-up bowl, anthracite. W48×D24×H17.3 cm. You can save water by doing your dishes in the washing-up bowl instead of washing dishes under running water. It can be placed over the edges of the sink, with inner dimension 400 mm, to give you extra worktop space.

105.034.30

LILLHAVET multifunc dish rack, anthracite. W17.4×L47.8×H14 cm. Can be fitted over your sink, with inner dimension 400 mm, or placed together with the drain board on your worktop. The soft coating prevents rusting and will outlast many years and washes.

804.612.76

LILLHAVET colander, anthracite. W48×D18.2×H10.2 cm. This over-the-sink colander for kitchen sinks with inner dimension 400 mm, is perfect to use as a strainer for washing fruit and vegetables, as a dish drainer or simply to hold sink bowl accessories.

505.034.66

SKOLÄST sink container extendable, green, Big enough to hold everything from washing-up liquid to brushes and sponges, giving you more space to work on the kitchen counter. Fits most sink bowls since the length can be adjusted from 39 to 54 cm, including the handles. On the edge there is an extendable arm where you can hang a dishcloth to dry. Water from dish brushes and sponges drains quickly through the holes in the bottom. Hangs firmly in place over the sink bowl thanks to the anti-slip surface under the handles.

Kitchen taps

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our

kitchen mixer taps with a water saving aerator that reduces water use – while maintaining the same water stream. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

10

All our kitchen mixer taps are tested and third party certified to meet, or exceed, the demands of the relevant national and international mechanical, quality, safety and hygienic standards. All IKEA kitchen mixer taps come with a free 10-year guarantee. Find out more on page 140

Functions

Kitchen mixer taps with low spout
Kitchen mixer taps with low spouts always have the handle on top, and are ideal for small single bowl sinks.
LAGAN kitchen mixer tap*

Kitchen mixer taps with high spout
The high spout makes it easier to wash dishes, including large pots.
DELSJÖN kitchen mixer tap*

Kitchen mixer taps with sensor
The kitchen mixer tap's sensor function is simple, hygienic and practical – perfect when you just want to fill a glass with water or rinse off your hands when cooking.
INSJÖN kitchen mixer tap with sensor*

Kitchen mixer taps with foldable function
The tap conveniently folds down so that it doesn't get in the way of inward-opening kitchen windows.
JUTTERN kitchen mixer tap foldable*

Kitchen mixer taps with pull-out spout
Rinsing dishes is easier with the pull-out spout. A counterweight makes the hose easily retract back into the kitchen mixer tap.
ÄLMAREN kitchen mixer tap with pull-out spout*

Kitchen mixer taps with handspray
The tap functions two ways, so you can switch between a concentrated stream and a shower function.

Kitchen organisers

A kitchen easy to live in

Your kitchen isn't fully in function until everything in it has found a place of its own. With smart organisers and acces-

sories, you'll find what you need, when you need it.

Your best kitchen friends

Trays, boxes and waste organisers help you to make the most of the space inside your kitchen cabinets.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilise the area in and around the sink, supporting the work-

flow both when preparing food and washing up.

Utilise the full area in the kitchen, even the walls. With smart wall storage often used items can be close at hand, at the same time you free up workspace.

Create the perfect combination for your drawers

Less time searching, more time for cooking. Clever inside trays for your drawers keep cutlery and kitchen utensils organised and in place. To really make sure you

can see everything in the drawer, complete with kitchen lighting. See all kitchen lighting on **page 78**.

Waste sorting combinations

Are you curious about how your waste can become new resources? HÅLLBAR series helps you sort different materials into different bins – a simple action and the first step towards giving waste a new life. HÅLLBAR

waste sorting management serie is a waste management solution for any room of your home and can be built-in and freestanding, whichever you prefer.

The bin's ventilation holes and the form of the bottom allow the air to circulate and dry out the organic waste. This minimises unwanted odours.

A ring on the top edge of the bin hides the waste bag and keeps it in place. It's removable either for easy cleaning or if not being used

Made in Switzerland for use in Switzerland

Our EBBEBO waste bins provide the perfect waste-sorting solution for your kitchen. They can be integrated into any standard 60 cm-wide kitchen base cabinet. They are manufactured in Switzerland for use in Switzerland. Their dimensions accommodate the 17 and/or 35-litre refuse sacks that are commonly used across the country.

Kitchen accessories

Whether you have a new, beautifully-planned kitchen or just looking to make improvements in your current one - there are a few secret ingredients that will make life simpler and more enjoyable. For instance, smart organisers create natural spots for storing cooking utensils and gadgets, so the whole family knows where to find them - and where to put them back. Trays, boxes and waste organisers work double

shift by preventing clutter and making the best use of space inside your cabinets and drawers. Wall storage does its magic by putting all those things you use the most, close at hand - right where you need them. And for the busiest place in the kitchen - don't forget the clever accessories around the sink that come in handy when preparing food and washing up.

Kitchen islands, sideboards, trolleys and step stools

All of these are easy additions to any kitchen design. A kitchen island serves as an extended worktop space and often becomes a favourite spot for snacking, working and socialising. Sideboards add that little extra storage we all need and a trolley on wheels offers roll-anywhere convenience. A step-stool is a must-have for any kitchen, for reaching things up high, letting kids join the fun at the worktop, or using as extra seating by the table.

Having things in plain sight has its advantages

With open shelves, hooks, rails and racks you can create a personal combination that gives a good overview of your kitchen and makes everything easily accessible. Inspired by restaurant kitchens, we created KUNGSFORS series of wall-mounted shelves and accessories so you can feel like a professional and enjoy a smooth workflow.
